DETAILED ACTION

Allowable Subject Matter

1. Claims 30,32-36 and 45-57 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art does not disclose nor suggest a support structure that is spaced relative to the force indicator such that a bimetallic actuator that is configured in a first pre-snap state and placed thereon contacts the force indicator upon being actuated to a second post-snap state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patents 3246840, 3739643, 3748888, 4025042, 5263643, 4414524 all teach bi-metallic actuators but does not indicate a force relative to movement of the actuator.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andre J. Allen whose telephone number is 571-272-2174. The examiner can normally be reached on mon-fri 8:00-4:30.
